### MIKE VANCE PGA PROFESSIONAL

Mike Vance is a member of the PGA of America and has been coaching the game of golf for over 25 years. Students benefit from Mike's thorough assessment and deep understanding of all types of golf swings, and he uses his insights to help students meet their goals while retaining what comes naturally—their "natural" golf swing.

Mike takes a four-pronged approach to student success: understanding your individual goals, diagnosing what factors are preventing you from achieving your goals, clearly explaining the steps you need to take to improve, and finally, teaching you how to help yourself become a better, more successful (and happier) golfer. Private lessons focus on a specific part of your game such as the full swing, short game or putting, and are dictated purely by the student's desire to learn that specific part of the game. Video analysis is included in all lessons.
